- **Answer:** B) *Orbital*
- **Explanation:** Samantha Harvey's novel *Orbital*, set on the International Space Station, won for its exploration of the fragility of Earth viewed from space and humanity's connection to it.

Qn,3

**Answer: A. Only statements 1 and 3 are correct.**

**Explanation:** CEEW is involved in policy advocacy for sustainable cooling and clean energy access for marginalized groups. However, its research and collaborations extend globally, engaging with international stakeholders to inform its energy and climate initiatives

Qn. 4

**Answer: (d) Only 2 is correct**

**Explanation:**

DRE systems are decentralized, not centralized (statement 1 is incorrect). They don't always need large grid infrastructure and can function in remote or off-grid locations, making them suitable for rural areas as well (statement 3 is incorrect). DRE technologies like solar, wind, and biomass are indeed used in DRE systems, especially in locations with limited grid access
