EXPLANATION

Qn. 1

Correct Answer: B. 1 and 3 only

Explanation:

- Statement 1 is correct. GFCF reflects investments in fixed assets such as machinery, infrastructure, and buildings, contributing to economic growth.
- Statement 2 is incorrect. GFCF excludes financial assets; it focuses on physical and tangible fixed assets.
- Statement 3 is correct. High GFCF indicates robust investments in productive assets, fostering economic expansion.

Qn.2

Answer: (c) 2, 3 and 4

Explanation:

The lower GDP growth for FY25 has been the result of a cyclical slowdown in the Indian economy in the past three quarters.

Apart from that, some of the factors affecting growth were:

1. Strong base effect,
2. General elections,
3. Weak private sector capex and
4. Monetary and fiscal tightening

Qn. 3

Answer: b (1 & 2)

Correct Answer: A

Explanation:

- Statement 1 is correct because Bharatpol was indeed developed by the CBI to facilitate seamless coordination with Interpol.
- Statement 2 is correct as Bharatpol aims to reduce delays by connecting agencies directly to Interpol.
- Statement 3 is incorrect because Bharatpol is not necessarily intended to replace all other forms of communication but rather to complement and streamline international coordination.

Qn. 4

Answer: (b)

Explanation:

- The Golden Triangle refers to the area around the borders of China, Laos, and Myanmar, which is historically infamous for its association with drug trafficking and opium production.

Qn. 5

b) Only 1 and 2

Explanation:

GASA maintains a scam database to monitor global fraud activities and organizes conferences to foster collaboration among stakeholders. It is an independent global initiative, not affiliated with the United Nations..
